STATE LAW/REGULATIONS	MEDICAID PROGRAM
Definition of telemedicine/telehealth	
<p>“Telemedicine” means the medium of delivering clinical healthcare services by means of real-time two-way electronic audio-visual communications, including without limitation the application of secure video conferencing, to provide or support healthcare delivery that facilitates the assessment, diagnosis, consultation, or treatment of a patient’s health care while the patient is at an originating site and the healthcare professional is at a distant site.”</p> <p><i>Source: AR Code 23-79-1601(5).</i></p>	<p>Arkansas Medicaid defines telemedicine services as “medical services performed as electronic transactions in real time. In order for a telemedicine encounter to be covered by Medicaid, the practitioner and the patient must be able to see and hear each other in real time.”</p> <p><i>Source: 016 06 06 Code of AR Rules and Regs. (CARR) 024 (2012).</i></p> <p>The Medicaid manual describes telemedicine as, “Interactive electronic consultations are physician consultations, ‘face-to-face’ in real time, via two-way electronic data exchange.”</p> <p><i>Source: AR Provider Manual, Section II: Physician/Independent Labe/CRNA/Radiation Therapy Center, p. 32. (Accessed Aug. 2016)</i></p> <p>Arkansas Medicaid defines telemedicine services as medical services performed as electronic transactions in real time. In order for a telemedicine encounter to be covered by Medicaid, the practitioner and the patient must be able to see and hear each other in real time. Physician interpretation of fetal ultrasound is covered as a telemedicine service if the physician views the echography or echocardiography output in real time while the patient is undergoing the procedure.</p> <p><i>Source: AR Provider Manual, Section II: Rural Health Clinic, p. 6 & Federally Qualified Health Centers, p. 10 (Accessed Aug. 2016).</i></p> <p>“Telemedicine” means the medium of delivering clinical healthcare services by means of real-time two-way electronic audio-visual communications, including without limitation the application of secure video conferencing, to provide or support healthcare delivery that facilitates the assessment, diagnosis, consultation, or treatment of a patient’s health care while the patient is at an originating site and the healthcare professional is at a distant site.</p>

Live Video Reimbursement	
<p>A health plan shall cover the telehealth-delivered services of an Arkansas-licensed physician on the same basis it would if the services were delivered in-person.</p> <p><i>Source: AR Code 23-79-1602(c) (1).</i></p> <p>A distant site provider will not utilize telemedicine to treat a patient located in Arkansas unless a professional relationship exists between the healthcare provider and the patient or as otherwise meets the definition of a professional relationship as defined in Section 17-80-117(a)(4). (See Comments section below).</p> <p>Existence of a professional relationship is not required in the following circumstances:</p> <ul style="list-style-type: none"> • Emergency situations where life or health of the patient is in danger or imminent danger or • Simply providing information in a generic nature not meant to be specific to an individual patient. <p><i>Source: AR Code 17-80-117(e) (1).</i></p>	<p>Arkansas Medicaid will reimburse for up to two visits per patient, per year. A benefit extension request may be approved if it is medically necessary.</p> <p>Covered visits:</p> <ul style="list-style-type: none"> • Consults; • Fetal echography and echocardiography (must be transmitted in real time); • Non-emergency visits in a physician’s office, a clinic or a hospital outpatient department; • Inpatient hospital visits; • Federally Qualified Health Centers (FQHC) encounters. <p>Specific CPT codes apply. See manual for special billing instructions.</p> <p>AR Medicaid covers telemedicine evaluation and management services of an attending physician at the local site only when the physician is physically attending the patient and is presenting the case to a consulting physician at the remote site by means of telemedicine media.</p> <p><i>Source: AR Provider Manual, Section II: Physician/Independent Lab/CRNA/Radiation Therapy Center, p. 68 & 129. (Accessed Aug. 2016)</i></p> <p><i>Source: (fetal echography and echocardiography): AR Provider Manual, Section II: Hospital/CAH/End Stage Renal Disease, p. 32. and Section II: Rural Health Clinics, p. 6. (Accessed Aug. 2016)</i></p> <p><i>Source (FQHC only): AR Provider Manual, Section II: Federally Qualified Health Center, p. 11. (Accessed Aug. 2016)</i></p> <p>There is reimbursement for live video for “Telepsych” services under the Rehabilitative Services for Persons with Mental Illness (RSPMI) program. See Medicaid manual for list of rehabilitative services that can be provided through telemedicine to beneficiaries under age 21 and above age 21.</p> <p>Note: These services are only available when, at a minimum, the Arkansas Telehealth Network (ATN) recommended audio video standards for real-time, two-way interactive audiovisual transmissions are met. Providers also must be able to link or connect to ATN, to ensure HIPAA compliance. Providers must receive prior authorization. An employee of the clinic must also be in the same room as the beneficiary.</p> <p><i>Source: AR Provider Manual, Section II: Rehabilitative Services for Persons with Mental Illnesses, p. 15. (Accessed Aug. 2016)</i></p>

STATE LAW/REGULATIONS	MEDICAID PROGRAM
	<p>Live video services will be reimbursed the same as if the services were provided in-person if conditions in AR Code 17-80-117 such as provision of services provided by an Arkansas licensed or certified healthcare provider, professional relationship (see Comments section) and eligible originating site.</p> <p><i>Source: AR Code 23-79-1602.</i></p>
Store and Forward Reimbursement	
<p>Store and forward shall not be considered telemedicine, but the use of it is not prohibited.</p> <p><i>Source: AR Code 17-80-117(b) (4) (A).</i></p>	<p>No reimbursement. Arkansas Medicaid requires telemedicine to occur in real-time.</p> <p><i>Source: AR Provider Manual, Section II: Physician/Independent Labe/CRNA/Radiation Therapy Center, p. 68. (Accessed Aug. 2016)</i></p> <p>Store and forward shall not be considered telemedicine, but the use of it is not prohibited.</p> <p><i>Source: AR Code 17-80-117(b) (4) (A).</i></p> <p>Radiology procedures are reimbursed as telemedicine when billed properly.</p> <p><i>Source: AR Provider Manual, Section II: Physician/Independent Labe/CRNA/Radiation Therapy Center, p. 132. Miscellaneous	
The Board of Examiners in Speech-Language Pathology and Audiology defines “telepractice” as telespeech, teleaudiology, teleSLP, telehealth or telerehabilitation when used separately or together. It defines “telepractice service” as the application of telecommunication technology equivalent in quality to services delivered face-to-face to deliver speech-language pathology or audiology services, or both, at a distance for assessment, intervention or consultation, or both. <i>Source: AR Code Sec. 17-100-103.</i>

Recently Passed Legislation

Arkansas prohibits the use of telemedicine to administer drugs that provide medical abortions.

Source: AR Bill SB 53 (2015).

A “professional relationship” between healthcare provider and patient means at a minimum:

- The healthcare professional has previously conducted an in-person examination and is available to provide appropriate follow-up care, when necessary, at medically necessary intervals;
- The healthcare professional personally knows the patient and the patient’s relevant health status through an ongoing personal or professional relationship, and is available to provide appropriate follow-up care, when necessary, at medically necessary intervals;
- The treatment is provided by a healthcare professional in consultation with, or upon referral by, another healthcare professional who has an ongoing relationship with the patient and who has agreed to supervise the patient’s treatment, including follow-up care;
- An on-call or cross-coverage arrangement exists with the patient’s regular treating healthcare professional;

- A relationship exists in other circumstances as defined by rule of the Arkansas State Medical Board for healthcare professionals under its jurisdiction and their patients;
or
- A relationship exists in other circumstances as defined by rule of a licensing or certification board for other healthcare professionals under the jurisdiction of the appropriate board and their patients if the rules are no less restrictive than the rules of the Arkansas State Medical Board.
