STATE LAW/REGULATIONS	MEDICAID PROGRAM
Definition of telemedicine/telehealth	
<p>Telehealth means the use of real-time interactive audio, video or other telecommunications or electronic technology, or store and forward telemedicine services a healthcare provider to deliver healthcare services to a patient within the scope of practice of the healthcare services provider when such provider is at a qualified site other than the site where the patient is located; and the patient is at a qualified site or at a school clinic staffed by a healthcare services provider and equipped to engage in the telecommunications described in this section and does not include audio only conversation; an electronic mail message or facsimile transmission.</p> <p><i>Source: TN Code Annotated, Title 56, Ch. 7, Part 10.</i></p> <p>Telemedicine is the practice of medicine using electronic communication, information technology or other means, between a licensee in one location and a patient in another location. Telemedicine is not an audio only telephone conversation, email/instant messaging conversation or fax. It typically involves the application or secure video conferencing or store-and-forward to provide or support healthcare delivery by replicating the interaction of a traditional encounter between a provider and a patient.</p> <p><i>Source: TN Rule Annotated, Rule 0880-02.-16.</i></p>	<p>“Telehealth is the use of electronic information and telecommunication technologies to support clinical care between an individual with mental illness and/or substance abuse issues and a healthcare practitioner.”</p> <p>“Telehealth systems provide a live, interactive audio-video communication or videoconferencing connection between the individual in need of services and the crisis service delivery system.”</p> <p><i>Source: TN Dept. of Mental Health and Substance Abuse Services p. 4, (July 2012) (Accessed Oct. 2017).</i></p>
Live Video Reimbursement	
<p>Health insurance entities (including managed care organizations) participating in the medical assistance program are required to provide coverage for telehealth (which includes live video) delivered services in a manner that is consistent with the health insurance policy or contract provided for in-person services.</p> <p><i>Source: TN Code Annotated, Title 56, Ch. 7, Part 10.</i></p>	<p>TennCare will reimburse for live video for crisis-related services.</p> <p><i>Source: TN Dept. of Mental Health and Substance Abuse Services, p. 4, (July 2012) (Accessed Oct. 2017).</i></p> <p>TennCare services are offered through managed care entities. Each MCO has their own unique telehealth policy.</p>
