Medicaid Telehealth Reimbursement

Summary

Michigan Medicaid reimburses for live video telemedicine for certain healthcare professionals, for patients located at certain originating sites for specific services. There is no reimbursement for store-and-forward or remote patient monitoring.

Definitions

“Telemedicine is the use of telecommunication technology to connect a patient with a health care professional in a different location.”

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1661, Apr. 1, 2019 (Accessed Apr. 2019).

Assertive Community Treatment Program (ACT)

Telepractice is the use of telecommunications and information technologies for the provision of psychiatric services to ACT consumers and is subject to the same service provisions as psychiatric services provided in-person.

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 347 Apr. 1, 2019 (Accessed Apr. 2019).

Behavioral Health Treatment Services (BHT)

Telepractice is the use of telecommunications and information technologies for the exchange of encrypted patient data for the provision of services (e.g., access or travel to needed medical services may be prohibitive).

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 474 Apr. 1, 2019 (Accessed Apr. 2019).

Medication Therapy Management

Telepractice is the use of telecommunications and information technologies for the exchange of encrypted patient data for the provision of services. Telepractice must be obtained through real-time interactions between the beneficiary’s physical location (origin site) and the pharmacist provider’s physical location (distant site).

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1592 Apr. 1, 2019 (Accessed Apr. 2019).

Speech-Language and Audiology Services; Medication Therapy Management

Telepractice is the use of telecommunications and information technologies for the exchange of encrypted patient data for the provision of speech, language and hearing services. Telepractice must be obtained through real-time interaction between the patient’s physical location (patient site) and the provider’s physical location (provider site).

Source: MI Dept. of Community Health, Medicaid Provider Manual, p. 1752 Apr. 1, 2019 (Accessed Apr. 2019).

Live video telemedicine is reimbursed, and should primarily be used when travel is prohibitive for the beneficiary or there is an imminent health risk justifying immediate medical need for services. Where face-to-face visits are required, telemedicine services may be used in addition to the required face-to-face visit, but cannot be used as a substitute.

Michigan Medicaid reimburses for the following service categories via live video:

- Inpatient Consults
- Office or other outpatient consults
- Office or other outpatient services
- Psychiatric diagnostic procedures
- Subsequent hospital care
- Training services, diabetes
- End-stage renal disease (ESRD) related services. However, there must be at least one in-person visit per month, by a physician, nurse practitioner, or physician’s assistant, to examine the vascular site for ESRD services.
- Behavior change intervention
- Behavior health and/or substance use disorder treatment
- Education service, telehealth
- Nursing facility subsequent care

Procedure codes and modifier information is contained in the MDHHS Telemedicine Services Database.

Telepractice for BHT Services

Telepractice services must be prior authorized. Telepractice must be obtained through real-time interaction between the child’s physical location (patient site) and the provider’s physical location (provider site). Telepractice services are provided to patients through hardwire or internet connection. It is the expectation that providers, facilitators, and staff involved in telepractice are trained in the use of equipment and software prior to servicing patients, and services provided via telepractice are provided as part of an array of comprehensive services that include in-person visits and assessments with the primary supervising BHT provider. Qualified providers of behavioral health services are able to arrange telepractice services for the purposes of teaching the parents/guardians to provide individualized interventions to their child and to engage in behavioral health clinical observation and direction (i.e. increase oversight of the provision of services to the beneficiary to support the outcomes of the behavioral plan of care developed by the primary supervising BHT provider).

Physicians and practitioners are eligible to be distant site providers.

Source: Dept. of Community Health, Medicaid Provider Manual, p. 1662, Apr. 1, 2019 (Accessed Apr. 2019).

Telepractice for BHT Services

Qualified providers include:

- Board certified behavior analysts
- Board certified assistant behavior analysts
- Licensed psychologists
- Limited licensed psychologists
- Qualified behavioral health professionals

Occupational, physical and speech therapists are not included in this policy.

A facilitator trained in telepractice technology must be physically present with the patient.

Online Prescribing

Providers must have an existing physician-patient or dentist-patient relationship.

Source: *MI Compiled Laws Sec. 333.17751(2)(a). (Accessed Apr. 2019).*

Schedule 2 to 5 controlled substances cannot be prescribed unless the prescribing is in a bona fide prescriber-patient relationship with the patient. A “bona fide prescriber-patient relationship” means a treatment or counseling relationship between a prescriber and a patient in which both of the following are present:

- The prescriber has reviewed the patient’s relevant medical or clinical records and completed a full assessment of the patient’s medical history and current medical condition, including a relevant medical evaluation of the patient conducted in-person or through telehealth.
- The prescriber has created and maintained records of the patient’s condition in accordance with medically accepted standards.

Source: *MI Compiled Laws Sec. 333.7303a. (Accessed Apr. 2019).*

A health professional providing telehealth service to a patient may prescribe the patient a drug if both the following are met:

- The health professional is a prescriber who is acting within the scope of his or her practice; and
- If the health professional is prescribing a controlled substance, the health professional must meet the requirements of this act applicable to that health professional for prescribing a controlled substance.

The health professional must also provide a referral for health care services that are geographically accessible to the patient, if medically necessary. They also must make himself or herself (or a delegated health professional) available for follow-up care or refer the patient to another health professional for follow-up care.
