Medicaid Telehealth Reimbursement

Summary

Kansas Medicaid covers live video telemedicine for certain services. Additionally, they also cover remote patient monitoring that is in real-time through home health agencies and with prior authorization.

All insurers (including Medicaid) must cover medically necessary services, subject to the terms and conditions of the contract. Medicaid specifically must provide reimbursement for speech language pathology services and audiology services.

Definitions

“Telemedicine is the use of communication equipment to link health care practitioners and patients in different locations. This technology is used by health care providers for many reasons, including increased cost efficiency, reduced transportation expenses, improved patient access to specialists and mental health providers, improved quality of care, and better communication among providers.”

“Telemedicine,” including “telehealth,” means the delivery of healthcare services or consultations while the patient is at an originating site and the healthcare provider is at a distant site. Telemedicine shall be provided by means of real-time two-way interactive audio, visual, or audio-visual communications, including the application of secure video conferencing or store-and-forward technology to provide or support healthcare delivery, that facilitate the assessment, diagnosis, consultation, treatment, education and care management of a patient’s healthcare. “Telemedicine” does not include communication between:

- (A) Healthcare providers that consist solely of a telephone voice-only conversation, email or facsimile transmission; or
- (B) a physician and a patient that consists solely of an email or facsimile transmission.

Home and Community Based Services for the Frail Elderly

Telehealth services (including remote patient monitoring) are provided on an individualized basis for participants who have an identified need in their ISPOC. Participant options and information are provided and discussed during the development of the Integrated Service Plan of Care (ISPOC). The participant qualifies if either of the following apply:

- The participant is in need of disease management consultation and education AND has had two or more hospitalizations, including emergency room (ER) visits, within the previous year related to one or more diseases.
- The participant is using MFP to move from a nursing facility back into the community.

Other Restrictions

Providers must submit literature to the fiscal agent’s Provider Enrollment team pertaining to the telecommunication equipment the agency has chosen that will allow thorough physical assessments such as: assessment of edema, rashes, bruising, skin conditions, and other significant changes in health status.

Providers must enroll and satisfy demonstration requirements to be enrolled.

Providers are eligible for reimbursement of home telehealth services that meet the following criteria:

- Prescribed by a physician;
- Considered medically necessary;
- Signed beneficiary consent for telehealth services;
- Skilled nursing service;
- Does not exceed program limitations (two visits per week for non-Home and Community Based Services beneficiaries)

Prior authorization required.
